From the Director's desk
As we begin 2007, we mark a milestone in the Center's history and begin a year of celebration. Ten years ago, members of the Retirees' and Emeriti Associations on the Berkeley campus were successful in implementing their proposal for a Retirement Center that would include programs and services for all retired Berkeley faculty, staff and their surviving spouses. The spirit of connection that underlays all Center activities is directly attributable to the Emeriti and Retirees' Associations, which began in 1980 and 1986 respectively. They had already laid the groundwork for the current-day Center through their activities and their persistent advocacy that yielded the first campus budget for their administrative support and office space in 1990. If not for those early efforts and the spirit of collaboration that still guides its growth, the Center would not have come to fruition.

Today, the Center has not only a physical office, but a brand new website which extends the connections between retirees and the Center into the virtual world with a new look and increased functionality (see page six for details).

Even though the Center now has its own robust programming, the associations still have their own membership-based activities and provide a critical advocacy function on campus and within the UC systemwide in a way that the Center cannot because of its status as a campus department. Additional information about the Berkeley, UCOP and LBNL associations is on page six, where you will also find an invitation to join members of the Berkeley Retirees' Association for "A Day at the Races." Since the Center's inception, it has been committed to serving the campus as well as its retirees. It filled a campus void when, in 1998, it developed and began to offer a comprehensive pre-retirement planning program. In 2001, the Center, with the help of Employment Services, developed the Retiree Work Opportunities program (p.6) that assists the campus with short-term, temporary staffing needs by connecting them to retirees who want short-term work assignments on campus.

Finally, the Center has had to say goodbye to one of its founding board members and LIR directors, Mel Webber. Though he would have balked at this mention given his great humility, we would be remiss not to note his passing and acknowledge his contributions. He was, indeed, a scholar and a gentleman.

Center Launches Redesigned Website

We are proud to announce the launch of our newly redesigned website. The redesign features enhanced graphics, links to campus and community programs, and a layout that should make it easier for you to find the information you want and need.

We have reduced the need for lots of mouse scrolling and improved the use of graphics, which not only improves readability but also the aesthetics of the site. Because accessibility is critically important, each Center web page now contains zoom buttons, which allow you to easily customize text size.

Because accessibility is critically important, each Center page also contains new information. For example, we thought you might enjoy getting to know a little bit better those dedicated to serving you, so we have added brief biographies of our staff and board members.

We have also made it easier for people to find out how to reach us by placing CONTACT US links prominently on each page of the site. We have added a form for direct contact through the site.

There are now over 400 hiring managers and retirees using this website to find each other. The Retirement Center also plans to offer a resume-writing refresher workshop later this year. Watch for details in future Center Piece articles.

To register as a new user, or if you have questions about how to post or update your website profile, call the Retirement Center at (510)642-5461 or email gjparra@berkeley.edu.

Military History: Three Eighteenth Century Battles

Organized and presented by Professor Thomas Barnes, Boalt Hall School of Law and Department of History

Three battles, each a day’s duration, fought within a space of fifteen years, the first on the Continent of Europe, the second in the north of Britain, and the third in Canada, were intimately connected with each other and utterly disjunctive of French imperial power in the Western Hemisphere to the aggrandizement of Britain—for a brief season.

Fontenoy, near Tourna in Belgium, May 11, 1745, was a set-piece battle of well-honed tactics of almost a century’s continuance that after nine bloody hours ended in the defeat and withdrawal of the British army from the Low Countries. Outside Inverness in the north of Scotland, at Drumossie Moor (today, Culloden) on April 16, 1746, the British army defeated a rebel force of Roman Catholic Highland clansmen led by the Stuart pretender-hunt to the throne supported by France, and in an hour’s exemplary display of asymmetrical warfare, in which the awesome wild Gaedic charge disintegrated under grape and ball, was fought the last battle on British soil signaling the end of Hanoverian vulnerability to French support of the house of Stuart. On September 13, 1759, a small British amphibious force surprised the French garrison at the citadel of Quebec on Abraham Martini’s plain, half an hour’s fierce fusillades and hand-to-hand combat ended with French retreat, both commanding generals dead, the siege of Quebec successful, and the end of French power in North America.

Tactics differed, and something like progressive modernization seems to have emerged in the conduct of war over the period. One army, the British army, learned the lessons of the “last war” more quickly than the other. And its general officers, having experienced defeat on the Continent and learning treachery and civil war at home in 1745-1746, vowed to defeat the enemy by preemptive strike, overwhelming mass, and ruthless prosecution in attack. They achieved one of modern war’s few genuinely decisive victories, but in the process sowed the seeds, not only political but also tactical, of the loss within two decades of the better part of the new empire.

Join Now and Let Your Voice Be Heard

The Retiree and Emeriti Associations are self-governed, self-funded membership organizations and as mentioned on the opposite page, the Retiree and Emeriti Associations are distinct from the Center and serve a critical advocacy function. First and foremost, they foster the retention and improvement of the health and pension benefits and privileges of UC retirees. They do this by their active membership and participation in the Council of University of California Retiree Associations (CUCRA) and the Council of University of California Emeriti Associations (CUCEA). These systemwide councils actively work to cultivate and strengthen communication channels among retirees, emeriti, the President’s Office, and the Academic Senate. Currently, the associations are keeping a close eye on the rising health care costs and how the University is managing those costs with respect to retirees.

Strong and large associations guarantee that your voices and concerns will be heard. Each association at UCB, LBNL, and UCOP has different procedures for joining. Please contact the Center for information about how to join your location-specific association.

Roni Gravitz Remembered by New Choral Piece
Sunday April 22 7pm
At their spring concert, the University of California Alumni Chorus (UCAC) will honor its visionary co-founder, the late Ronni Kordell Gravitz, with the worldwide premiere of a specially commissioned piece, “The Road Goes Ever On,” the full music of Ronni’s favorite poem by J.R.R. Tolkien by composer Gwyneth Walker.

In addition to co-founding the Chorus, Ronni capped off her 20-year career at Cal as an inspirational program manager at the Retirement Center. In 2004, she was awarded the prestigious Berkeley Citation. In recognition and in memory of Ronni’s contributions, the Center created the Gravitz Memorial Internship on Aging, a subject about which Ronni was passionate.

This special event kicks off the Chorus’s 2006-2007 season theme of “A Woman’s Inspiration” and will consist of pieces written by, for and about women, including works by Hildegard von Bingen, Francesca Caccini, Fanny Mendelsohn Hensel, Amy Beach, Gwyneth Walker, Claude Debussy, Joseph Haydn, and others.

The concert will be held in Hertz Hall and seating is by general admission. Tickets are $10 for seniors/retirees; general admission is $15. To purchase advance tickets, please send a check for the number of tickets you want to the Retirement Center, 2 Boalt Hall #7220, Berkeley, CA 94720-7220. Payment must be received at the Center by April 12. Or you may come into the Center to purchase tickets in person, but please call first to make sure we have them.

Parking for Center constituents will be available through the Retirement Center for purchase at $4 (see the box at the bottom of page five for instructions on how to request parking).

From the Director’s desk
As we begin 2007, we mark a milestone in the Center’s history and begin a year of celebration. Ten years ago, members of the Retirees’ and Emeriti Associations on the Berkeley campus were successful in implementing their proposal for a Retirement Center that would include programs and services for all retired Berkeley faculty, staff and their surviving spouses. The spirit of connection that underlays all Center activities is directly attributable to the Emeriti and Retirees’ Associations, which began in 1980 and 1986 respectively. They had already laid the groundwork for the current-day Center through their activities and their persistent advocacy that yielded the first campus budget for their administrative support and office space in 1990. If not for those early efforts and the spirit of collaboration that still guides its growth, the Center would not have come to fruition.

Today, the Center has not only a physical office, but a brand new website which extends the connections between retirees and the Center into the virtual world with a new look and increased functionality (see page six for details). Even though the Center now has its own robust programming, the associations still have their own membership-based activities and provide a critical advocacy function on campus and within the UC systemwide in a way that the Center cannot because of its status as a campus department. Additional information about the Berkeley, UCOP and LBNL associations is on page six, where you will also find an invitation to join members of the Berkeley Retirees’ Association for “A Day at the Races.”

And on April 22nd, the UC Alumni Chorus (UCAC) will hold its spring concert, which is attributable to the Emeriti and Retirees’ Associations, which began in 1980 and 1986 respectively. They had already laid the groundwork for the current-day Center through their activities and their persistent advocacy that yielded the first campus budget for their administrative support and office space in 1990. If not for those early efforts and the spirit of collaboration that still guides its growth, the Center would not have come to fruition.

Finally, the Center has had to say goodbye to one of its founding board members and LIR directors, Mel Webber. Though he would have balked at this mention given his great humility, we would be remiss not to note his passing and acknowledge his contributions. He was, indeed, a scholar and a gentleman.
