# Survey of UC Berkeley Emeriti Activity

## July 2015- June 2018

Every three years, the Council of University of California Emeriti Associations (CUCEA) conducts a survey that attempts to reach all UC emeriti for the purpose of compiling information about their activities in retirement, especially as these activities relate to their academic careers. The most recent survey, covering the period from July 2015 – June 2018 was administered in Fall of 2018 and the results are now available.

The survey methodology is a 21-item standard survey formatted for online participation. It was prepared and distributed using SurveyMonkey. A copy of the survey can be found at the CUCEA website: (<http://cucea.ucsd.edu>). Each of the nine individual UC emeriti associations managed its own survey distribution process and made its own appeals to emeriti for participation. An estimated 6,028 UC emeriti were individually contacted and encouraged to participate in the survey. The results for the entire UC system are described in a report generated by CUCEA, entitled “A Virtual Eleventh Campus: An Inventory of University of California Emeriti Activity During 2015-2018.” A copy of this report can be found at: <http://cucea.ucsd.edu/documents/CUCEA2015-18.pdf>

This UCB summary report focuses on the responses provided by UC Berkeley emeriti. Based on a database provided by the UCB Retirement Center, the survey was distributed to 1048 emeriti. Emeriti were contacted either by regular mail or by email, depending on their stated preference for receiving information about emeriti affairs. Those contacted by email were encouraged to participate in the study and given a link to an online SurveyMonkey survey. Those emeriti who stated a preference to use standard mail received a printed version of the online survey along with a stamped return envelope. Mailed surveys were returned to the local campuses and the information on them was transcribed into the SurveyMonkey database. After an initial request, two follow-up requests were made to all emeriti requesting their participation. Responses were obtained from 371 emeriti, which is 35% of the UCB emeriti contacted.

Results for the survey are presented in the following pages. The format used to present the results is to (1) present each question as provided in the survey; (2) followed by the number and percentages for the responses to the categories of the question. For many of the questions, there was an opportunity for the respondent to provide a comment, explanation, or elaboration. These open-ended responses are summarized briefly in a “NOTE” following the table presentation of the results.

What the data and results show is that UC Berkeley emeriti continue to be active contributors to Berkeley’s excellence. Many have continued activities in areas on campus pertaining to campus teaching, research, administration, and service, as well as to their professional associations. Emeriti continue to be highly creative, generating much new research and scholarship. Emeriti continue to

garner honors, recognition, and awards. Many emeriti continue to obtain grants and financial support for their research endeavors. Emeriti also provide significant amounts of financial contribution in the form of donations and bequests totaling \$26.6M detailed at the end of the report.

Finally, the results show that many have transitioned to retirement and found new ways to channel their energies that include societal, campus, and family endeavors. Emeriti are a strong resource for the campus, and they are a potent group of representatives for campus as well.

Many retirees have clearly chosen not to disengage from their campus, their research and teaching activities, and their commitment to UC Berkeley. UC Berkeley not only should be proud of their retired faculty but also should consider ways to make good use of their experience and energy.

Answered: 80 Skipped: 291

NOTE: The types of activities cited in response to this question include: teaching at other universities; guest lectureships; working in one's own or other's developing companies; service in the community; board leadership roles, continued research, community activism, etc. – many of these activities could have, and perhaps were, noted in responses to other questions in the survey.

Other activities included “enjoying retirement,” exercise, travel, choral singing, bread making, music lessons, learning new language, grandparenting, writing a memoir, and caring for elderly family or friends.

~~~~~  
**NOTE: Total Gifts made by Emeriti to UCB** data included on our cover was obtained from the UCB Development Office, which reflects contributions for all emeriti (those who responded to the survey as well as those who did not). The data includes the total number of and total amount of gifts, pledges, and matching gifts given in the specified year. Because bequests are recorded as pledges, that data includes these gifts.

In 2016, Emeriti gave 1,092 gifts for an approximate total of \$8,404,360.

In 2017, Emeriti gave 1,044 gifts for an approximate total of \$8,773,657.

In 2018, Emeriti gave 1,118 gifts for an approximate total of \$9,467,659.

In total, Emeriti gave 3,254 gifts for an approximate total of \$26,645,676.
